#### **4. Material**

Please bring your laptop.

If you don't have one, we can provide 2 or 3 for the week. Please contact [noelle.lallemand@cnam.fr](mailto:noelle.lallemand@cnam.fr) to inform her about your need for a laptop, in this case.

There will be a methodological workshop that requires the installation of SPSS and the AMOS module. Please try to get them installed on your laptop before coming, e.g. through your university.

If you don't have this software, we can provide one for the training. Again, please contact [noelle.lallemand@cnam.fr](mailto:noelle.lallemand@cnam.fr) to tell her if you need a software installation. If so, you will have to arrive to Inetop-Cnam on June 29, in the morning, to organize the installation.

Alternatively, you can also download and install the test version of SPSS and AMOS shortly before the summer school. If you chose this option, please keep in mind that the free trial of the software expires after only a few weeks.
